

Programs on developments in climate services.

Monday, 2 November 2015
15:30-17:00, Room II

The landscape of European Climate Services Research and its contribution to innovative solutions

DRAFT ABSTRACT

The workshop gives an overview of a number of relevant programs related to European Climate Services Research, followed by a discussion where the potential contribution of these program to the innovations in Climate Services can be identified. Reviewed will be (among others) the Roadmap on Climate Services, the structure and expected outcome of the recently initiated coordination project ECOMS2, and the shaping of the ERA-net cofund action ERA4CS. (in development)

Chair: Marco Gemmer (EU) and Bart van den Hurk (KNMI)
