

## **EU NMSs for EU, New approaches to anticipate on future extreme weather events.**

Monday, 2 November 2015  
15:30-17:00, Room II

### **DRAFT ABSTRACT**

Define the potential of including “anecdotal evidence” to support climate change adaptation and mitigation decisions. Propose methods that complement standard scenario and multi-model projections with illustrative events, and contribute to decision support.

Chair: Bart van den Hurk, KNMI, The Netherlands

Co-chair: Charles Aangenendt, Ministry of Infrastructure and Environment, The Netherlands

Co-organizers: SMHI: Kerstin Konitzer; Erik Kjellstrom
